

St. Augustine Community College

Summer Classes 2023

Dear Parents/Guardians

As more and more data becomes available, there is mounting evidence of the tragic and indisputable impact of COVID 19 on educational and social outcomes among children and young adults.

Lower Test scores and grades in school systems everywhere reflect significant loss of learning during COVID 19 with strong correlations between the length of lock downs and severity of learning loss. Our students continue to struggle with social adjustment, depression and behavioral challenges. No child has been spared and the full impact is only now unfolding.

The good news though, is that we have an opportunity to work towards better outcomes. Our goal during this vacation program is to help students catch up, reinforce and move forward in recapturing some of this loss.

We also hope that this opportunity to engage with others and participate in extra-curricular activities will help our teenagers and young adults regain confidence and enthusiasm, so critical to well being and success.

Registration for ALL Programmes:

Corner Wilson & Warner Streets, St. Augustine

☎ 663-3370

☎ 746-9117

*Office hours: Monday - Fridays 8:00 am - 4:00 pm * Saturdays 8:00 am - 1:00 pm*
